12:30.00PM	*"ICT drives business"* In Africa, ICT has always been considered a cost driver. This presentation positions a different thinking which is that ICT has ceased to be a cost but a business driver. Focus will be on how harnessing ICT (especially cloud technologies) can completely change the way an organization conducts it's business. Cloud technology bring efficiencies to the table which make it more cost effective to conduct business.	**Mr. Richard Maulana** *Head of Cloud Services Twenty Third Century Systems Zimbabwe*
